About me

I am a creative and passionate junior full stack developer with a strong focus on optimization and continuous learning. Known for my ability to quickly master new technologies, I thrive on solving complex problems and developing efficient, scalable solutions. My goal is to contribute to innovative projects while constantly improving my skills and delivering high-quality code.

Experience

Content Technician – LRDG. Inc

2023-Present

Modification and optimization of content in XML files, applying HTML and CSS knowledge to enhance structure and presentation.

Conducted quality assurance (QA) to ensure content accuracy.

Edited videos and audio based on project requirements.

Engineering Manager – OLC ingenieria SAS

2019-2020

Coordinated comprehensive site planning and management, ensuring efficient allocation of resources and adherence to project timelines. Budget control processes, optimizing costs and ensuring financial adherence to project projections. Managed personnel coordination to ensure efficient project execution, promoting teamwork and timely completion of objectives.

Engineering Manager – Bomagro ingenieria SAS

2017-2019

Managed site planning and control to ensure efficient project execution.

Served as the logistics coordinator, facilitating smooth operations throughout the project lifecycle.

Created comprehensive project plans for sanitary water initiatives and oversaw the installation of hydraulic pumps.
